

NGUYEN NHAT HUYNH

MOBILE APP DEVELOPER

Ho Chi Minh City, Vietnam | nickynhathuynh@gmail.com | 0822 041 909 | [LinkedIn](#) | [GitHub](#)

SUMMARY

Mobile App Developer specializing in React Native and Flutter, with hands-on experience building and deploying production applications to the App Store. Seeking a junior/fresher opportunity to grow within a collaborative engineering team. Strong foundation in mobile architecture, RESTful API integration, reusable component design, and cross-platform performance optimization for iOS and Android. Comfortable working alongside backend, QA, and product teams in Agile environments.

SKILLS

Mobile:	Flutter, Dart, React Native, Expo, TypeScript
UI/UX:	Figma, Responsive Design, Wireframing
Architecture:	Clean Architecture, MVVM, BLoC/Cubit, Provider, SOLID, DI
Networking & Data:	RESTful APIs, WebSockets, Dio/Retrofit, Firebase, Supabase, Hive
Tools & CI/CD:	Codemagic, Flutter DevTools, Multi-environment builds, App Store & Google Play deployment
Platform & Security:	Native SDK integration, Deep Linking, FCM, Biometric Auth, Secure Storage, Root/Jailbreak

EXPERIENCE

TMTECH LIGHTING MANUFACTURER

Sep 2025 – May 2026 Ho Chi Minh City

Mobile Developer

365 BCORE – Internal Operations App (React Native | App Store)

- Developed and maintained 365 BCORE, a React Native application deployed to the App Store, supporting internal operations for manufacturing staff.
- Implemented key features: attendance tracking, work reporting, and real-time internal chat.
- Integrated RESTful APIs and handled client-side business logic for complex workflow modules.
- Built a reusable component library, improving development speed and consistency across iOS & Android.
- Managed full release pipeline: configured app signing, built production bundles, and submitted releases to App Store and Google Play Console.

AWS FIRST CLOUD JOURNEY

Jan 2025 – May 2025 Ho Chi Minh City

DevOps Ambassador

- Gained hands-on experience with core AWS services: EC2, S3, DocumentDB, CloudFront.
- Organized and facilitated workshops on Generative AI and cloud architecture solutions.
- Deployed a blog platform with cost-optimized architecture and improved performance.

MINDX TECHNOLOGY SCHOOL

Jun 2023 – Present Ho Chi Minh City

Programming Instructor

- Taught web development courses, Scratch, and game development to students of various age groups.
- Mentored students in personal development, assisting them in building strong portfolios and preparing for careers in technology.
- Awarded “Teacher with the Best Student Achievements” certificate for outstanding student outcomes.

PROJECTS

VOICE CAMERA PRO

May 2025

Personal Project | React Native · Expo · TypeScript

- Built a hands-free camera app for iOS & Android using voice commands to capture photos and record videos in 3 languages (Vietnamese, English, Japanese).
- Integrated expo-speech-recognition with fuzzy matching for robust voice command detection and real-time language switching.
- Implemented full media pipeline: auto-save to device library, haptic feedback, and responsive UI across screen sizes.
- Architected with custom hooks and clean component structure (React Native + Expo SDK 54 + TypeScript).

EDUCATION

DONG NAI UNIVERSITY OF TECHNOLOGY

Sep 2020 – Jun 2025 Dong Nai

B.Eng. in Information Technology | GPA: 3.74/4.0

ENGLISH PROFICIENCY

- Strong reading comprehension of technical documentation in English.
- Able to communicate effectively in written English with international teams and stakeholders.
